CURE TREATMENT FOR EVERY HUMOUR.

Bathe the affected parts with hot water and CUTICURA SOAP, to cleanse the skin and scalp of crusts and scales, and soften the thickened cuticle. Dry, without hard rubbing, and apply CUTICURA OINTMENT freely to allay itching, irritation, and inflammation, and soothe and heal, and lastly take CUTI-CURA RESOLVENT PILLS, to cool and cleanse the blood. This pure, sweet, and wholesome treatment affords instant relief, permits rest and sleep, and points to a speedy, permanent, and economical cure of the most torturing, disfiguring, itching, burning, and scaly skin, scalp, and blood humours, eczomas, rashes, and irritations, from infancy to age, with loss of hair, when all else falls.

MILLIONS USE CUTICURA SOAP

Assisted by CUTICURA OINTMENT, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, for baby rashes, itchings, and chafings, and for all the purposes of the toilet, bath, and nursery. Millions of Women use CUTICUHA SOAP in the form of baths for annoying irritations, inflammations, and exceriations, for too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sanative, antiseptic purposes which readily suggest themselves to women, especially mothers.

CUTICURA RESOLVENT PILLS, CHOCOLATE COATED,

Arb a new, tasicless, edourless, economical substitute for the celebrated liquid Curtonna RESOLVENT, as well as for all other blood purifiers and humourcures. Put up in screwcap pocket vials containing to doses. Curicuna Pills are alterative, anticeptic, tonic, and digestive, and beyond question the purest, sweetest, most successful and economical blood and skin purifiers, humour cures, and tonic digestives, yet compounded. ON ACQAIRTANCES.

I suppose that a man must have many fine friends in order to appreciate acquainttances, and that this is why so few have maised the latter. I wish to praise them because all friends have once heen acquainttances, and I would not miss one hour of their memory; and also because some: acquaintances have never been an foolish or so unkind as to become my friends, Were I to go no farther I should surely have made clear their charms. For who, on the one hand, does not look back some times with delight, and especially at seasons when friendship is much occupied with the sombro deeps of life-who does not look back, and remember afresh and with pleasure the moments when like a first glass, our friends, with all their best qualities unknown, and yet not unguessed at, were tasted careless. ly and with the palate quite unsoiled and in no need of the clives of charity? What walks, what talks, what pipes, what books, are thus recalled ! . (To the Baitor of the China Mail) Ein.—Some years ago I bought the enclosed book (China and the Allies by Savage Landor) and, as I am well adquainted with Peking, I have been puzzling my brains about the plan of Peking as represented in it. Yesterday I met a friend who also has stayed some time in Peking and on putting our heads together we came to the conclusion that the plan is totally wrong, and should be something like as we have corrected it from memory in red ink on

Now, if Savage Landor's historical facts and personal Littleisus (vide General Chaffee), is equally untrustworthy I do not wonder at war correspondents being re-fused admixtance to the fighting armies I have also read his last book about the Philippines and find it a very disappointing: flying catalogue of islands, rivers, lakes and Datos (Chiefs), and it seems that his former criticisms and carried him, an to speak, on their hands. that the ship was going to Japan. His Worship in summing up reasoned with the men as in previous cases of the kind that have recently come before him. pointing out that by refusal to comply with the terms of their agreement they rendered thomselves liable to punishment. If there was any reasonable danger to be apprehended from proceeding to Japan he would be the first to recognise it, but there was no creater danger attached to the trip that ordinarily attended a seafaring life. The knowledge that coal was considered to be contraband of war did not apply in their case as the coal was not intended for, or consigned to a belligerent power. It was for the port of Sasebo. The men having been given a chance to alter their decision and rejoin their ship refused to do so and were ordered to be impresented for 12 weeks', and to be reshipped on board the Queen Eleanor" should she return to port before the expiration of the sentence.

The test was carried out on the 11th inst. at Bisley, and the ranges selected were | Eight hours before the Meeting. 200, 600, and 800, yards. As many trial shots were taken as proved necessary, and, when the correct sighting was obtained, a series of seven shots was fixed by all (with two exceptions at 800 yards) with each rifle at each range, and, in order to ensure equality of conditions, the firing was conducted by groups of three

men, a rifle of each pattern being used simultaneously. all day, it was found that in the unanimous opinion of all, the rifles took the following order of merit :-

1. The long barrel fitted with wind-gauge 2. The long barrel as issued without the

3. The new short rifle. All those taking part in the test are April, 1905, with two steamers. agreed on the following conclusions :--1. That the new rifle is badly balanced,

This is due to the facts that a considerthe butt in order to decrease the weight of oth April, 1905. At Amoy connection is the rifle, and that the additional weight of made with the Company's regular steamers the wooden cover to the fore end, together for Formosa and other Ports. with the heavier metal nose-cap, all tend to throw the balance further forward.

easier to fire quickly with the long rifle at new and up-to-date steamers. short rifle are not adapted to quick-firing, the front sight being too small and greatly

ing flanges on each side. The fact that the adjusting screws of the back-sight did not work well was felt to be more a matter of detail and workmanship. 3. That the recoil was considerably. heavier than in the long-barrelled rifle, and would greatly add to the difficulties in

it more tiring. 4. That the accuracy of the rifle as a weapon of precision is appreciably diminat ached to the report will prove. Reports I ished, for all experience the same difficulty small limits of angle obtainable with both INDIA, ADEN, EGYPT, MEDITER the long barrelled rifles employed.

5. The trials lasted all day, and as evenagainst 128) in the preceding year, while ing approached (but before sundown) all noticed the great flash of flame from the short barrel, whereas with the long rifle ne to point out the advantages derived by an enemy armed with a rifle not only superior as regards accuracy, but one which would not produce large fiashes when fired in dull weather, and which would not consequently prove a serious obstacle to concealment and cover.

6. As a weapon for the cavalry the short rifle is an advance on the carbine, to which. in their opinion, it is superior.

These gentlemen went down to the range with perfectly open minds to conduct a practical test on the fairest lines possible; As a result they are unanimous in condemonly because the barrel itself is rendered less accurate not only because, the sights well-wishers, they found 40 unhandy and 1905.

In conclusion, I submit that the testimony of these expert marksmen, who have and kinds, may be of some value in corroborating those so ably expressed in the article by your correspondent.
